

## **COLD/FLU/COVID Season Guidelines**

The cold, flu and Covid season is upon us, and to provide a healthy environment in which to worship and serve, please follow some simple guidelines when we gather.

We hope that all members will consider and receive available vaccinations for the flu and Covid-19.

If you are not feeling well, coughing, or sneezing, please stay home and get well, and participate in online services.

When we gather together,  
if you feel more comfortable wearing a mask, please do so.

Hand sanitizer and masks are available for your use throughout the church.
