

REPORT ON 2023 SYRUP SEASON- Roger Johnson

We just sold the last jar of maple syrup produced last spring. I deeply appreciate the time and work put into this project by the members of St. Olaf's.

The production was 140 gal. syrup which broke our record by 20 gal.

The net income was \$6,921. Included in the expenses was \$1,687 for a new pneumatic filter press.

Supported so far by this year's income were: St. Olaf quilters, Honor Flight, Dr. Martin Luther Church, Play For Cade-Rubicon, and Disabled Veterans-Watertown.

Syrup production has produced \$63,673 in net income since we began in 2009. Projects supported since 2009 will be listed in the annual report, or just ask me for it. At this point, there is \$7,000 of 2022 and 2023 syrup income available for a new sanctuary floor if it is decided to install it.
